## Package Design

## Concept

## Full-size headphones with high-quality dynamic sound and optimum comfort

## Main Features

- High-quality dynamic sound reproduction with 50mm Neodymium driver unit and two types of superior sound structure
- Ring port structure provides high-quality dynamic sound
- Acoustic lens structure reproduces natural sound through two pieces of specially-engineered acoustic lenses
- Acoustic lenses (located in front of diaphragm) tune direct and indirect sound by subtly offsetting holes in each lens
- Wide head pad and soft ear pads for optimum comfort
- 3.5m pure copper cord for minimisation of transmission loss with gold-plated plug
- 6.3mm plug adaptor included

JVC's pursuit for the reproduction of original sound quality results in the two types of High-res compatible headphones now.

Natural wood is blessed with superior acoustic characteristics. It features high sound propagation speed and sufficient vibration attenuation, resulting in the high sound definition and clear sound. The HA-SHR01 has many parts made of wood, extracting the superiority of the material to maximum.

**40mm WOOD dome diaphragm**

Designed to give pure and natural sound output

**Wood plate** to absorb unwanted reflected sound interference

**Multi Layered Wood Housing** to provide superior support for advanced Driver System

# HA-SHR01

# High-Res compatible headphones with wood driver

# JVC

Wood Diaphragm

## Package Design

### Concept

**Around-ear headphones for High-Res audio with 40mm WOOD DOME UNIT reproducing superior sound, rich/warm presence.**

### Main Features

- 40mm real wood dome diaphragm for pure and natural sound
- Real wood plate for absorbing/diffusing the reflected sound resulting in higher resolution
- Newly developed “high energy magnetic circuit” with high magnetic flux density over 1T (tesla)
- Multi-layered strong “Wood Housings” construction provides stability and sound with natural expansion
- Detachable L/R isolated grounding cord with anti-vibration jack
- Swivel design and carrying pouch for easy portability

Note

HA-SHR02 is adopting Triple Magnets to optimize the magnetic energy, resulting in the high speed response for the sound signal and reproducing the original sound precisely.  
 The newly-developed PEN diaphragm and Clear Sound Plug achieve high-fidelity and pure sound reproduction.

## Package Design

## Concept

On-ear headphones designed to reproduce the wide range and balanced Hi-Res sound

## Main Features

- “Sequential Twin Enclosure” deploying the special cavity for middle/high frequencies optimizes the balance of frequencies for the wide and flat High-Res sound reproduction
- High-Strength and light weight PEN diaphragm
- Triple Magnets for crisp, clear sound reproduction in high definition
- Clear Sound Plug for pure and clear Hi-Res sound playback
- Polyamide material with glass fiber compound to extract maximum detail from Hi-Res audio
- Swivel design and carrying pouch for easy portability
